Dear Sir:

I have in my possession a few unusual coins, and would like very much to determine the value of same. Thinking possibly you might be able to give me some information regarding the same, I list them below:

	yr.		
2 -	1851	$1.00 gold pieces	USA
1 -	1823	Louis XVlll	French 1/2 F.
1 -	1826	Charles X	French 5 F.
1 -	1842	Mexican	10 D. 20 G.
1 -	1837	"	" "
1 -	1875	"	" "

I also have a gold piece or coin which is difficult to describe, so am giving an illustration below of both sides of the same. It bears no date, however, it is my belief that it was of confederate vintage.

C. BECHTLER ASHVER. 75C

NORTH CAROLINA 250. 20.C. Gold

If you are unable to give me any information regarding the above, will you kindly advise me in the enclosed stamped envelope of any parties who you may know to be coin collectors, and their addresses?

Thanking you in advance, I am,

Yours very truly,

L. K. Wooten

Dear Sir:

The silver coins that you describe have, as far as we can see, no premium. The gold dollars are worth a little over $2.00 each. Your piece of C. Bechtler is somewhat scarce. These were made in the 40's and 50's in North Carolina. It is impossible to tell just what it is worth without seeing it. If you care to send all the pieces on, we will see what we can get for them here in New York. Do not send for the next two weeks, as the writer will be away during that time.

Very truly yours,

Curator
